at leap.club, we're building **more than just a 'workspace'**. we're creating a community where women can connect, lean on and grow with each other.

this is a safe space for you to work productively on some days, make meaningful connections on the other, and thrive along with other ambitious women – on all of them.

whether you're looking to work on that passion project on the side, find solace while smashing deadlines, or brainstorm with other like-minded women – our space and community is designed to keep up with you.

the best of both worlds

dedicated workstations, private booths, community work zones—all designed to adapt to your needs.

hang out, unwind, grab a coffee, or catch up with (new) friends—it's all part of your day here.

i've been with the offline club since day one, and it feels like an extension of my living room. from the speakeasy vibe to the creative spark in every corner, it's a warm, welcoming space. the chirpy "hi" at the front desk and quirky touches everywhere make it special. it's a place that sparks joy and feels like home.

priyal shah

it's nice to walk into a room where everyone knows your name and people are happy to see you. you are the people you surround yourself with and what could be better than a group of extremely ambitious, motivated, kind and effervescent women?
