

leap.  
club

india's first  
(offline) club  
*only* for women

we started leap.club in 2020 with 30 women and a bold mission –  
**more women in leadership roles.**

our goal was to build a new network focused on women – focussed on professional connections and new friendships.

25,000 women have found accountability partners, coaches, colleagues, jobs, clients, sports and travel buddies, and above all – made (lots of) new friends.

we are now taking our next leap by launching

**india's first offline club,  
only for women, at linking road in bombay.**

individual cubicles for deep, focused work.

## **meeting rooms**
